

ADVANCED CERTIFICATE: TEACHING EARLY CHILDHOOD SPECIAL EDUCATION FOR ECE CLASSROOM TEACHERS

The Advanced Certificate in Teaching Early Childhood Students with Disabilities provides licensed Early Childhood and Childhood teachers who have completed master's level study in early childhood classroom instruction, the opportunity to expand their study to include the ability to meet the needs of young children with disabilities, including those who are culturally and linguistically diverse. Through comprehensive coursework candidates will gain an understanding of the challenges of young children with disabilities and develop the pedagogical skills and instructional strategies to support students' growth to help them meet the Next Generation Learning Standards.

In alignment with NYSED's Culturally Responsive and Sustaining Framework, this Advanced Certificate Program provides candidates with the knowledge to build caring, nurturing, communities focused on equity and inclusion, that value the unique strengths of young learners with disabilities, including those who are culturally and linguistically diverse, and builds success for all learners. This Advanced Certificate program provides teachers with the knowledge and skills to help families advocate for their children and navigate the complex systems of special education to maximize their child's development and success.

Requirements ¹
